

A Tree Talk by Peter O'Reilly in 1991

Having a confident, positive attitude will not make every situation or interaction go perfectly or suddenly make every problem vanish, but a positive attitude will make every situation go more smoothly and will win one the respect of others who may even adopt such an attitude. With a positive attitude you will always do your best and with a smile on your face most of the time, no matter what happens, it is impossible to lose and you will always be a success.
